Hi Amir,

Thank you for reaching out on this. As the session has to be exchanged with another session to change its time, it is a bit tricky now. We are working on it and will see what we can do. We will keep you posted.

Best,

Yinan

Dear all,

I hope you are doing great! My name is Amirhossein Eskorouchi, and I will be serving as the chair for the *Advanced AI Solutions in Health and Diagnostics* session. I noticed that both Abdur and I have another presentation scheduled at the same time as this session.

I'm writing to kindly ask if there is any possibility to adjust the timing of my session to avoid this conflict. I would greatly appreciate any accommodation you could make.
